SKILLS

MAIN:

HTML, CSS, JavaScript, ReactJS, TailwindCSS, Redux, Framer-Motion, Bootstrap, MySQL, NodeJS, ExpressJS

OTHER:

C/C++, Java, Github, Vercel

DOAN KHAC VI

WED DEVELOPER

OBJECTIVE

I am a junior student at the academy of cryptography techniques (KMP), with a passion for web development. I have experience developing and managing websites for club (KCSC) at my university. Currently, I am using ReactJS and NodeJS technology for web development. In the future, I will learn more about Java Springboot and want to become a Back-end developer, and further than that, a fullstack developer. I have good self-study ability and can adapt to the learning and working environment quickly.

EDUCATION

SOFTWARE DEVELOPER // 2021 - 2025 (expected)

Academy Of Cryptography Techniques (KMP)

Current GPA: 3.63/4.0

PROJECTS

CARO-GAME // 10/2023 - 12/2023
